

Splash of Sun

Sunless Tanning Spray with Bronzer

Get a healthy glow with this safe alternative to tanning. Splash of Sun is a unique tanning solution that combines Olive Oil and other moisturizers in a sprayable lotion base. It not only provides a natural looking tan, it conditions and softens the skin at the same time. Self-tanning products work without sunlight to safely combine with the natural amino acids on the surface of the skin. The key ingredient, DHA, works only on the surface layer of the skin and has undergone decades of dermatological testing and is proven safe. It's the way to gorgeous color without spending a minute under the sun. Splash of Sun Sunless Tanning Solution contains 10% DHA and is PH balanced to provide a golden tan without streaks or orange appearance.

Moisturizing Tan Extender

Rejuvenate your tan with this total body moisturizing spray. Infused with Olive Oil and other moisturizers, Splash of Sun Tan Extender will extend the life of your tan by keeping your skin totally hydrated. Our light, non-greasy formula is exceptionally mild, absorbs quickly and works like the essential fluids abundant in young skin to help restore skin to its natural beauty while helping to strengthen the skin's moisture protective barrier.
